

Worksheet

Choosing a degree subject area

This activity is designed to help you reflect on your degree area course matches you have been exploring through your Morrisby account or results from the Job Outlook Career Quiz. You will choose some degree areas from your best matches, close matches and/or unexpected matches and record your responses to the questions below.

If you have completed the Morrisby Profile go to About Me > Study Interests to answer a questionnaire about different study areas at degree level. This should take under 10 minutes.

Review the list of areas suggested and pick one from the best matches listed in Options at 18 for further research.

How do I react to the description of the course structure and topics?

For any course selected **read full guide** for further details of that course. Consider whether you will enjoy studying a course in this area. You may add responses for as many different degree areas as you wish (at least two) - note your response below.

Am I likely to meet the entry requirements? (Consider one course from 2 areas)

Read about required subjects in **Entry requirements**.

What about any special requirements - can I meet these?

Read about any additional requirements in **Entry requirements**. Examples of these for some courses include having a folio or performing at an audition.

Would I like to work in any of the areas described in Career Prospects?

Note which career area appeals most to you and why.

Note which degree subject you want to investigate further

You will use the worksheet **Investigate degree courses** in a separate lesson to help you research specific courses in your chosen degree area and to record your responses.

The degree area I want to investigate further is:
