

# Track Careers Activity

The screenshot displays the Morrisby Tracker interface for a student named Joseph Stevens. The main dashboard includes a 'Hi Joseph, what to do next?' message with a 'Start now' button and a 25-minute timer. Below this are sections for 'About me', 'My choices', and 'Progress', each with a progress bar. A 'Log Activity' form is visible, with a '74%' completion indicator. The 'Work experience' section shows a 'Completed' status with a category of 'Student' and a duration of '480 minutes'. A 'Skillsbuilder' section features a bar chart with categories: Listening, Speaking, Problem Solving, Creativity, and Stay on track. A 'My to do list' includes tasks like 'Complete my profile', 'Speak to advisor', and 'Update study interests'. A calendar for February is also shown. The interface is clean and modern, with a dark blue footer containing 'Terms', 'Privacy/Service', and 'Quality & Ethics' links.

Morrisby Tracker makes it easy to record careers activity and enrichment activities. Student voice is captured by the activity feedback tools and the modern 'record of achievement' is output by the Morrisby Learner passport.

## Careers activity

Morrisby Tracker has been developed to help schools record and evidence their wider provision, which is so important to student development. These can be careers related activities, but equally can be used to record extracurricular or enrichment activities. Activities are created using an easy-to-use wizard and the system comes with a library of ready-made careers lessons.

## Learner passport

Tracker is different from other systems because of its direct interaction with students. They can log their own activities, include skills they have acquired, while including evidence which can be easily audited by teachers. This is combined with other activity and the action plan to create the Learner passport.

## SkillsBuilder

An 'activity' can be categorised against multiple SkillsBuilder steps. It can also include additional resources such as lesson plans, worksheets, class presentations and Morrisby 'Forms'. This gives structure to plan out your lesson or activity, as well as make it richer and more engaging for students.

## Student feedback

For each activity you can decide if you want to capture feedback. This is done via a feedback form, sent by both alert and email, and is the ideal way to evidence the quality of your provision, as well as informing continuous improvement and capturing 'student voice'. The resulting feedback report is ideal as evidence for inspection.

# Management system

## Data and dashboards

Careers leaders and teachers are well supported with a management system that is flexible and powerful. With multiple dashboards to interrogate data and a student database that makes it easy to see progress by vulnerable groups, classes and cohorts to name a few. Key data can also be downloaded for further interrogation.

## Careers plan

Morrisby Tracker includes a tool that enables you to document and output a comprehensive career plan. It comes with a ready made library of careers activities and lessons that you can add to or amend, as well as suggested text that you can use as a starting point for your own customisation. The resulting document not only looks professional but can then easily be added to your own website to show parents what the careers plan involves.

## For Students

- ✓ Simple tools to record activities such as DofE, sport and volunteering
- ✓ Rich Learner passport document – the modern 'record of achievement'
- ✓ SkillsBuilder Universal framework steps to develop and progress against
- ✓ Easy to provide feedback on activities and events
- ✓ Flexible action planning tools and a careers locker to store documents experiences and interactions

## For Teachers & Advisers

- ✓ Easy to add any activity using the built in wizard
- ✓ View student progress for individuals or groups using the manager dashboards and custom groups
- ✓ Collate student feedback automatically and output key evidence for inspection
- ✓ Save time by customising the built in careers plan document
- ✓ Integrated with the Morrisby Careers system

## For Schools

- ✓ Provides simple tools to record the wider enrichment and programmes
- ✓ Develop and build employability skills using the SkillsBuilder Universal framework
- ✓ Assurance of using a matrix accredited organisation
