

# Morrisby Profile

## Training & Pricing

### Training

free\*

\*Online training;  
contact for face-to-face  
training cost

### Pricing

\$50

per completed  
report inc GST

**TRAINING** is required to access the full Morrisby Manager console. It is strongly recommended that anyone intending to use the Morrisby Profile completes their own profile in addition to the mandatory online training. A school must have at least one Certified User to continue using the product.\*

#### Steps:

- 1 - complete your own Morrisby Profile online (1hr 40 minutes)
- 2 - complete the certification course; this is about 4 hours online or 1 day face-to-face. There is an intensity in the online course that means it is best approached over several sittings.

Online training is free of charge. If you would prefer face-to-face training it may be arranged and will incur fees related to time and travel expenses.

\*Career Analysts reserves the right not to provide training and to remove access to student data at their discretion. This would be those not connected to the 'careers industry' seeking to be seen as Career Practitioners, or where we have questions over professional standards or ethical use of the results.

**PRICING** is \$50 per completed report (inc GST). Invoicing is in arrears. You use the product and at the start of each month Career Analysts will invoice you for profiles completed the previous month. Schools who use the Morrisby Profile for 90%+ of a cohort also have free access to Morrisby Careers.
