Higher education?: Yes/No
More detail:

Further education?: Yes/No
More detail:

Apprenticeships/Traineeships?: Yes/No
More detail:

Straight into employment (which may or may not involve a GAP year?): Yes/No
More detail:

Given your answers in this worksheet and your own thoughts, which options at 18 will you consider? And, why?

To keep their options open many people apply for one, two or three routes, depending on their preferences and the routes available in their given career. Consider your preference(s).

For example - Whilst I would prefer to go to university, and this suits my learning style, I also like the idea of applying to a higher apprenticeship as earning whilst studying also appeals. I will apply to universities, but also look into apprenticeships and apply to any which seem interesting to me and meet my other priorities, including allowing me to live with my parents.
